

We Connect the Field to the Firm

## VENDOR DEPLETION PORTAL

The IOS Vendor Depletion Portal application is an extension of the IOS Sales Briefcase system and is designed specifically for use by the wholesaler's vendors or suppliers. The IOS Vendor Depletion Portal is fully integrated with the IOS Sales Briefcase data base to virtually eliminate any application set-up, interface, or implementation costs. The IOS Vendor Depletion Portal application offers the following capabilities for the vendor or supplier:

- Ability for a vendor/supplier to login 24/7 to view and download their item or brand specific depletion reports
- View Monthly Depletion reports by item or brand
- View Detailed Sales reports by premise; brand or item
- View Detailed Sales reports by account; brand or item
- View Detailed Sales reports by sales rep/division; brand or item
- View Depletion report trends for 12 months at a time
- Ability to export reports and information to Excel or PDF formats
- Create additional reports for specific suppliers or vendors
